

**AOBA Certified Level III Alpaca Show**  
**April 23, 24, 25, 2010**  
Alameda County Fairgrounds  
Pleasanton, CA

## **Health Requirements**

**All alpacas attending the show regardless of state of origin:**

***All alpacas entering the show grounds must show proof of a negative PCR test (virus not found) for BVD (VI completed prior to 1/1/10 accepted). Test results must be on the certificate of veterinary inspection. All alpacas must be microchipped and microchip# listed on the certificate of veterinary inspection. Alpacas shall not be allowed into the show area until the test results and the microchip# have been validated.***

For EVERY alpaca that enters the fairgrounds, regardless if it is in the show or not, an ORIGINAL AND COPY of a Certificate of Veterinary Inspection completed within 30 days of the last day of the show (March 27, 2010) and must be presented at check-in. The copy will be kept by the Halter Superintendent!! **The alpaca ARI name & microchip number for EVERY alpaca entering the show grounds MUST be recorded on the Certificate of Veterinary Inspection.** Alpacas transported from out of state must adhere to the California State livestock transportation laws, please contact your veterinarian for details. We recommend that all alpacas be treated with appropriate de-worming medication within 21 days of the show event. Due to health and safety considerations, all on-site alpacas in the show barn must meet the minimum age requirements of 6 months.

## **Microchip Identification**

- It is the responsibility of the owner of every alpaca entering the venue of an AOBA certified show to corroborate the identity of each alpaca. The identification of each alpaca is by microchip. PLEASE verify your alpaca's microchip AT THE TIME you have your Certificate of Veterinary Inspection completed. If you have an unusual microchip, please bring your own reader to read/show the microchip at the show.
