

Sandi Ridge has a passion for fiber that is supported by a herd of 50 alpacas that she and her husband have been raising and breeding for over 7 years. She is a self taught fiber artist specializing in Needle Felting. Her Needle Felting projects have won numerous Fiber Arts competitions and many praises from the Judges. She is an accomplished spinner and finds experimenting with spinning and plying techniques to best show off the different qualities, colors and textures of not only alpaca fiber but alpaca blended with other natural and man made fibers, very rewarding and satisfying. She has been a Spin-Off judge for the last 3 years and thoroughly enjoys having her hands in other Alpaca Owners fiber as well.
